REACTATHON

Developer Conference

React is a fun and powerful tool for developing modern front-end user interfaces, fast. Reactathon is a developer conference in San Francisco celebrating the extended React.js ecosystem, featuring some of the biggest names and best speakers in the community.
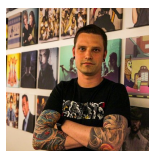

Conference

The conference starts with a reception on Friday evening, where attendees can mingle with one another and also learn about various topics moderated by experts, including A11Y, Redux, GraphQL, D3, and more. The full day conference on Saturday is hosted by GitHub at their beautiful headquarters in downtown San Francisco. We are excited to share this event with you filled with learning, fun, networking, and new friends.
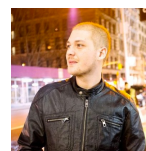

Speakers include

Jen Luker	Ryan Burgess	Brian Holt	Lauren Tan	Amjad Masad
Formidable	Netflix	Microsoft	Netflix	Repl.it

and more

Workshops

Our workshops will send your engineers through a hyperloop of productivity. With workshops from the fundamentals to advanced, your engineers will learn in hours what our instructors have mastered over years. See the full list of workshops at Reactathon.com/workshops
